March 21, 2014

Dear Property Owner,

This letter is written in explanation of the notice of the proposed Land Use Amendment and Zone District Amendment. These changes are proposed by the owners of the existing cell tower located at approximately 400 West Highway 91. If approved this would allow for the expansion of the walled area of the existing equipment compound and the addition of equipment (see attached proposed site plan). If approved, this change would not allow an increase to the height of the existing mono-pole tower or to add an additional mono-pole tower.
If approved the equipment compound would increase from its current size of 35' x 35' to 50' x 59'. This would also allow for the upgrade of antennas on the existing mono-pole.

Please contact me if you have any questions. You are welcome to attend the public hearings and participate. This notice is for the Planning Commission Public Hearing. You will receive a future notice for the City Council Public Hearing.

Sincerely, Kevin Rudd

Kevin Rudd – Ivins City Building & Zoning Administrator
