Ivins City Staff Report
City Council Meeting 4/17/2014

Agenda Item: Approval of expenditure for streets pavement maintenance

Submitted by: Charles R. Gillette, P.E., City Engineer

Recommended City Council Action:
Approve expenditure of $275,000 for streets pavement maintenance

BACKGROUND:
Staff has identified 265,000 square yards of streets that are need of pavement maintenance. The attached map show the areas to be covered. The slurry seal is considered to be an effective manner of protecting asphalt streets from deterioration from sun and water while providing a renewed skid resistant wearing surface. Slurry seals are projected to add five to seven years of extended life to a pavement surface.

FINDINGS AND ANALYSIS:
Bids were received from three companies. A summary of these bids is provided below:

Bid	Company	Total Bid	Notes
1	American Pavement Preservation (Las Vegas, NV)	$281,067.27	Apparent Low Bidder
3	Intermountain Slurry Seal (SLC, UT)	$282,912,36	
2	Morgan Pavement Maintenance (Clearfield, UT)	$324,223.26	

The apparent low bidder with a conforming bid from American Pavement Preservation. Staff therefore recommends awarding of the project to American Pavement Preservation. Staff requests that the Council approve this expenditure. To avoid exceeding this budget item, staff requests approving only $275,000 for this expenditure and staff will negotiate with contractor prior to allowing the project to start and reduce the scope of the work to fall within budget.

SUPPORT MATERIALS:
Project Map

FINANCIAL IMPACT:
The following general ledger codes will be used
Streets Fund: 10-60-515: $275,000

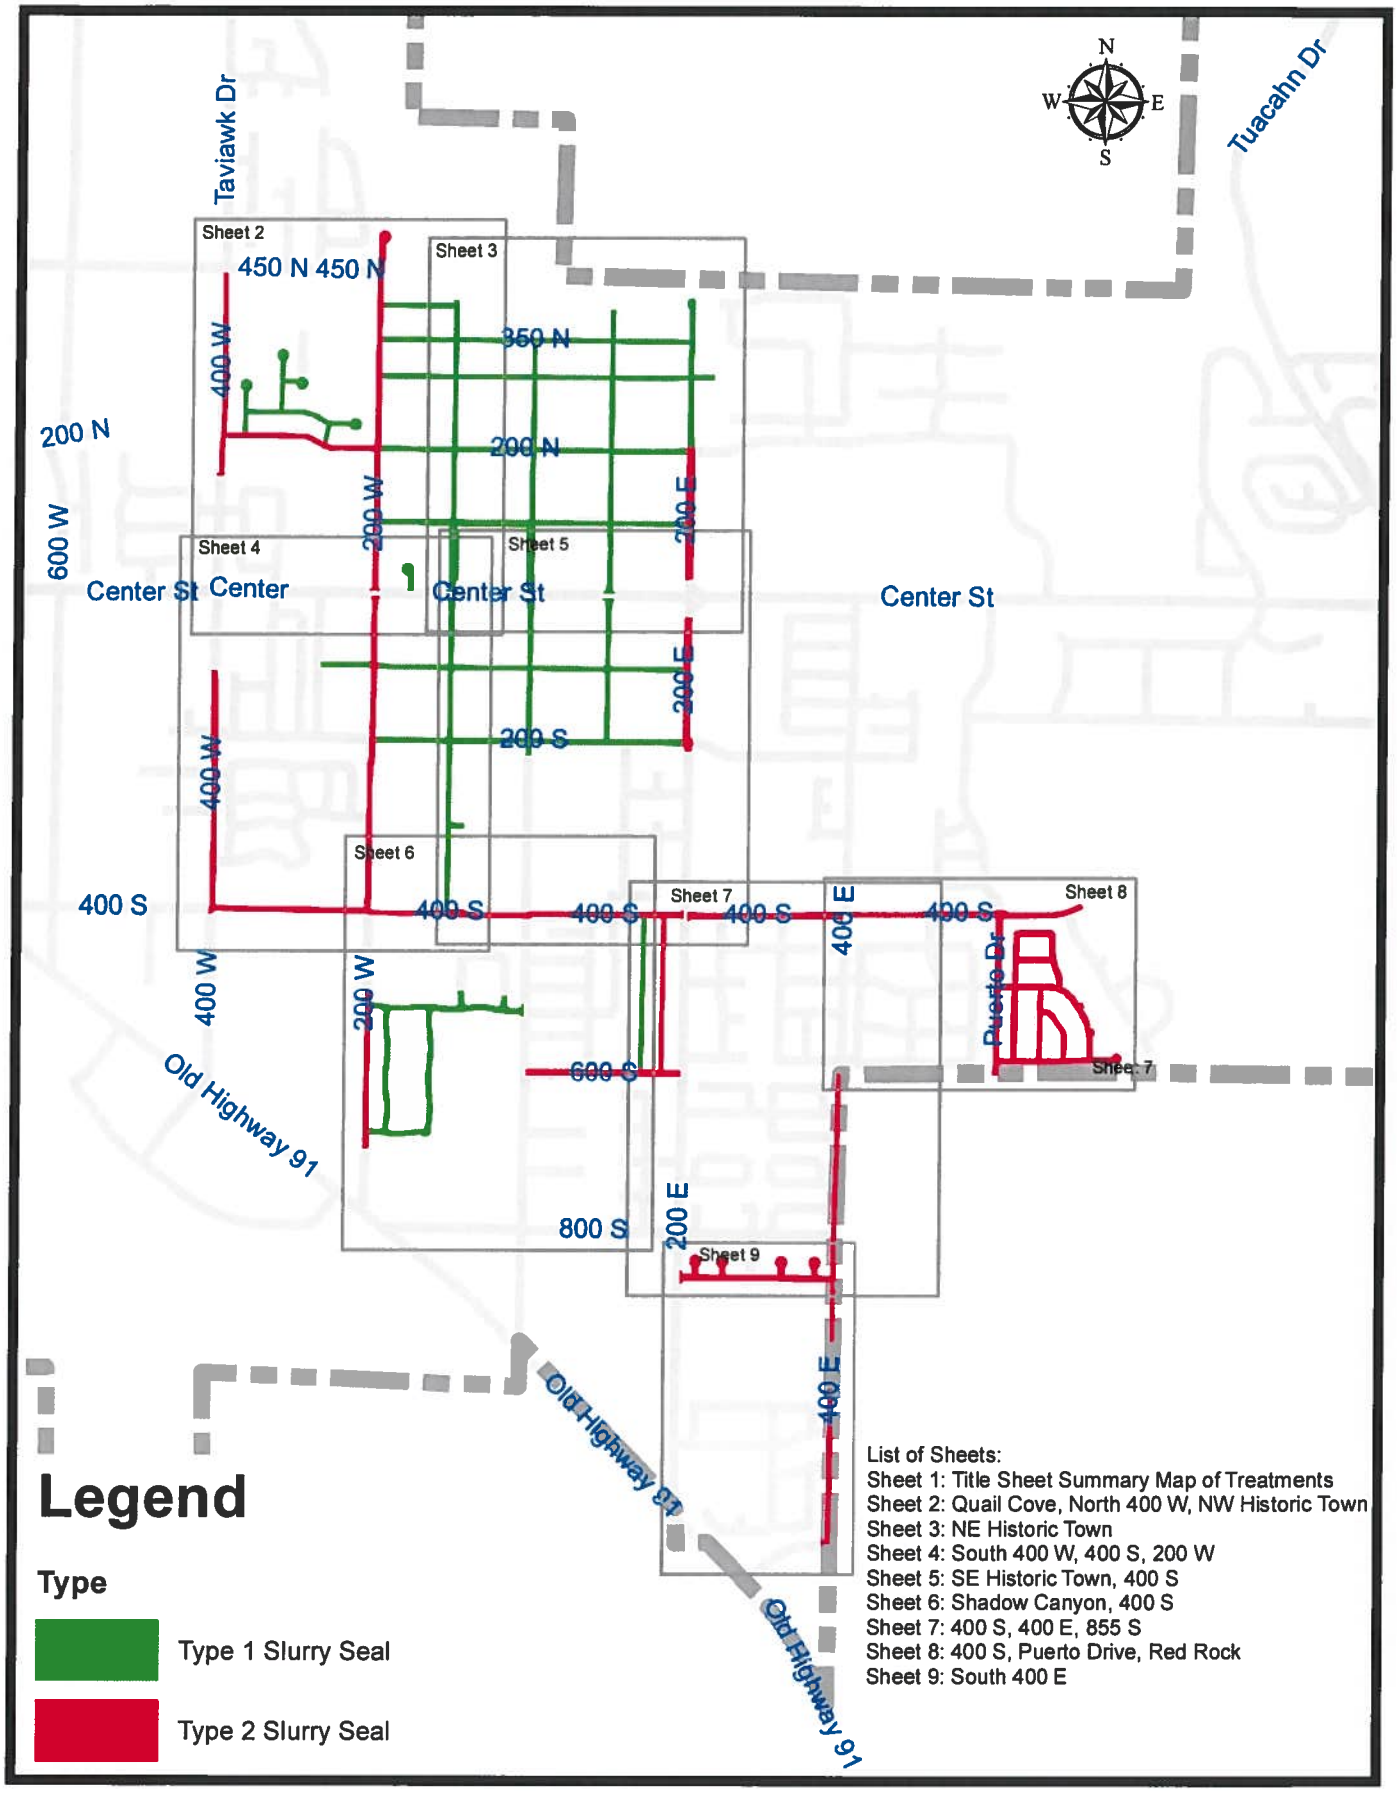

Respectfully Submitted:

Charles R. Gillette, P.E., City Engineer
