Public Safety Department Report
City Council June 5, 2014

SCI Police Department

SCI has had 2 officers recently graduate from the SWAT School in Utah County. This makes 4 of our full-time officers SWAT certified.

The Department completed an Active Shooter and Warrant Services training.

The Family Road Respect Bicycle Festival was hosted by Ivins City and the Utah Department of Highway Safety. The Public Safety Department helped out with the Bike Rodeo.

The SCI Public Safety Department participated in the Special Olympics Torch Run.

School is out so we have our Resource Officers back on patrol for the summer.

Sgt. Nuccitelli has been assigned to drug enforcement in Ivins and Santa Clara and will work with quality of life enforcement issues.

FIRE

Training-In May we started a Fire 1&2 Academy to train our new recruit volunteers. 12 new recruits started the training. Two other department members are in the class to become certified for a total of 14 trainees. Classes take place twice a week on Tuesday and Thursday from 7 to 10. This class is a big commitment for the trainees and the instructors. Many hours are put in by the Captains and instructors assisting with the teaching.

Special Events- Four Department Members participated in a Public Education Event at the Shivwits Reservation. An engine and crew attended the Paiute Reservation Safety event. Members talked about fire safety in the home and preparedness for fire related emergencies.

Several station tours took place this month. The entire First Grade morning and afternoon classes from Vista School visited the station for a tour. Approximately 80 students attended. Two Preschool classes visited the station this month with 12 and 15 Preschool age children.

Equipment-Wildland equipment is maintained and ready to respond for the upcoming Wildland Fire Season. Brush 121 had a battery replaced on the pump.

Annual pump testing was completed on Engine 121 and Engine 122. Both apparatus passed NFPA 1911 standards for pumper flow rates. However, E122 is now 25 years old and is not compliant with other NFPA standards. E122 needs to be replaced.

Other- All gated subdivisions in Ivins City have now been upgraded to have an Emergency Fire Department Access Knox key system. This replaces the old padlock and key system. This Knox key system in now uniform throughout the city and will be required on any gated subdivisions or commercial buildings.

Significant Calls- Members of Ivins Fire were among the first responders to the downed aircraft in the South Hills area of the Santa Clara Reserve. Ivins Fire had medical and emergency responders find the missing aircraft and were ready for medical assistance if needed.

EMS

The paramedic transport has been running smoothly. We had one Gold Cross paramedic intercept this last month.

We ordered the new ambulance from Rocky Mountain Ambulance. Assembly should be 6 months or less.

We provided ambulance coverage for the Ironman and the Bull riding event at Tuacahn.

Training:
Last month crews were instructed on airway emergencies.
We had several crews attend the PEPP course at Dixie State University. The rest of the crews will take it in November.
We ordered the ALS adult manikin, Tension Pneumothorax simulator. We had one EMT go through the AEMT course and have ordered several different training manuals for some up-coming medical courses. This will greatly enhance our training efforts. All this was made possible through the state EMS grant.
We had 7 members from the community take the CPR training which was offered at the Fire Station.
We are providing CPR training for the staff at Tuacahn the next couple of weeks.

Calls:
So far this month we have had 90 fire and ems calls. The most ever in a one month period and we still have a few days left in the month.
EMS has responded on average to 50 calls per month in this 2014 year.

Animal Control

The volunteer hours for May equaled $925.00.

Total donations of dog and cat food, cat litter, and misc. items: $1,988.00.
