Training - The Fire Academy class was instructed in Hazardous Materials Operations. This 40 hour class finished with certification and testing through the Utah Fire and Rescue Academy. Four members of our department were tested and passed all skills.

Annual Hose testing was done with department members. Hose testing is required annually to maintain NFPA standards as well as for ISO records.

EMS staff monthly training consisted of STEMI protocols and recognition and ambulance placement for scene safety.

Equipment - T121 has an air leak with the internal compressor. An actuator valve is ordered. The work can probably be done in house.

Significant Calls - Volunteer Firefighters responded to assist with damage control from the floods which occurred September 9th. 8 Volunteer Firefighters responded and pumped homes and sandbagged property. Four left their full time jobs to help citizens in need. Ivins Volunteer Fire Department has dedicated personnel and enough can't be said about their dedication and devotion to the department and citizens of Ivins.
