Ivins City Manager/Attorney

RE: **Amended Alcoholic Beverages Ordinance (2014-21)**

The following is a brief summary of the amended Alcoholic Beverages Ordinance that is on the agenda for your consideration.

1. Please note that Part 1 was previously approved by the Council. It is the remainder of the ordinance that is being brought forward for your review and consideration.
2. Much of our current policies and procedures for Off-Premise Beer Retailer License and Temporary Beer Event Permit have remained in place with minor updates.
3. Since the licensing for all other alcoholic beverages are now handled by the State, I have outlined two application processes: 1) a brief cover page application that would be submitted with a copy of the State application for the TRC to approve a "Local Consent" for the State license; and 2) a more detailed application to obtain a City-issued license/permit that would receive a recommendation from the TRC and then be approved by the City Council.
4. Language that had previously required a "Beer Handler's Permit" has been removed since that program is not longer being administered by our Public Safety Department (not since Wade Carpenter left).
5. A consolidation into Part 5 the Licensee Requirements, Violations, Penalties, and Appeal process in the event there is cause for suspending or revoking a license/permit issued by the City.
6. Although the ordinance still is just over 9 pages in length, there has been an attempt to simplify, clarify and organize into understandable Parts the various requirements of the ordinance.
