Ivins City Staff Report
City Council Meeting 3/5/15

Agenda Item: Approval of expenditure for pre-purchase of box culverts for upsizing of culvert on Old Highway 91 at Kayenta Wash

Submitted by: Charles R. Gillette, P.E., City Engineer

Recommended City Council Action:
Approve expenditure of $50,112 for pre-purchase of box culverts for upsizing of culvert on Old Highway 91 at Kayenta Wash

BACKGROUND:
As the Council is aware, staff has been working with NRCS for the upsizing of the culvert on Old Highway 91 at the Kayenta Wash Crossing. We need to pre-purchase the box culverts for the project. The NRCS funding will not help pay for the materials when upsizing a damaged culvert, but they will pay for the installation.

FINDINGS AND ANALYSIS:
Staff compared costs of reinforced concrete box culverts to concrete arch span and found the box culverts to be 30% less expensive. We are in the process of bidding the installation of the culverts as a separate contract. The installation bid results will be presented at the next Council meeting on the 19th.

SUPPORT MATERIALS:
- Price quote

FINANCIAL IMPACT:
The expense has been budgeted and is impact fee eligible.
GL 53-42-743: $50,112.00

Prices quoted are firm for thirty days from bid date.

Buyer has read and understands the Geneva Pipe Terms of Sales.

All prices are quoted F.O.B. Jobsite. Material will be delivered only to locations that can be readily accessed by a loaded truck and trailer under its own power. Customer is to furnish men and equipment to unload materials, unless seller notes otherwise. Should the truck remain on the jobsite for more than one hour the customer will be liable for a $120 charge billed in ten minute increments.

Prices quoted are based on full truckload quantities. Products that must be delivered in less-than-truckload lots will be subject to an additional charge depending on the size of the lot and distance of the delivery.

Items and quantities shown have been established by seller review of plans and specifications. All items and quantities are shown for buyers convenience only and the seller shall not be liable for any take-off errors or extension errors. If the seller has been given an incorrect number of units, it is agreed that the buyer shall pay the per unit price for the number of units actually delivered.

Any special products ordered and/or produced, will be invoiced to the customer when ready for shipment.

Undamaged, standard products that are returned will be subject to a restocking fee of 20% of the invoice price. Freight costs for Geneva trucks to return products will be charged. Special order and custom produced products cannot be returned and are not eligible for a credit.

Thank you for allowing Geneva Pipe & Precast to serve you!
