FIRE

Training-The first training of the month was a hands on training with extrication equipment. The area Holmatro extrication equipment representative brought tools for our department to demo for the evening. A vehicle was donated to cut up and firefighters practiced stabilizing the vehicle and removing the driver

from a simulated crash. Crews gained access by cutting the roof and doors from the vehicle and displacing the dash from the victim. This equipment is needed by Ivins Fire Department and should be looked at for future purchase.

Fire Department personnel are beginning to get geared up for the upcoming wildland season. Fire crews are required to complete an annual refresher to recertify. The first portion of training was held on the 19th. Also a physical fitness test is required. The Pack Test is a 3 mile walk with a 45 pound pack in 45 minutes or less.

Classes on wildland air operations and weather behavior were attended by two personnel. Air operations is a 16 hour course and weather behavior is a 32 hour course.

Burn season is now open. Citizens may obtain a burn permit by going online and filing out information on the burn permit tab of the Ivins Fire Department page on the Ivins City Website. Citizens may also call the Washington County Dispatch Center. Burn Season is open until May 31 or a significant weather change.

Fire Calls for the month are up as of 3/23/15 - 10
