TNR		
In Shelter	22 Cats - 6 Kittens	

Total Donations to Shelter	$ 1,419.40
Volunteer Hours	$ 1,185.00

FIRE

April 2015 Monthly Report

Training:

April's department training consisted of Wildland skills: Progressive hose lays, fire shelters, saws, and size up and documentation were topics of training taught by our captains.

A county wide communication summit took place at the Dixie Center. Communication skills with the 800 MHz system were discussed. All Fire, Police, and EMS personnel were invited with a focus on communication between agencies and use of various channels were emphasized.

Utah Forestry, Fire, and State Lands sponsored a Wildland Engine Workshop. The workshop took place Friday, April 10 and Saturday, April 11. Fire Departments from the Southern Utah Area met and were trained in leadership skills and preparation for wildfire. The second day was a hands on skills day with agencies interacting and training. Table top exercises, hands on hose lays and fire attack skills took place. Fire personnel received 12 hours of practical training from the workshop.

Ivins Fire participated in bringing an engine and ambulance to a special needs youth group. Fire and EMS personnel showed the apparatus and discussed tools and equipment. Youth were also able to spray water from a hose and try on fire turnouts. Fire crews talked about daily job duties and response to calls. It was a very rewarding experience for all.

Vista School's 3rd grade visited the station and two tours were given with about 50 students each.

Maintenance:

Annual pump testing took place this month. All structure fire apparatus which include Truck 121, Engine 121, and Engine 122 had the pumps tested as required to maintain NFPA standards.

Truck 121 had an electrical interlock switch go out. This disabled all auxiliary electrical from working including the generator, pump and ladder system. The problem was traced and Wilson and I installed the new parts. The truck in now in service.

Calls:

A suspicious fire took place on the outside storage container of the Medical Center. No suspects were identified. Minimal damage was done to the container. A small brush fire was involved.

Ivins Fire assisted Santa Clara Fire with mutual aid on a structure fire. Truck 121 arrived with a full crew of 4.

Calls for fire service as of 4/27/15 - 13
