FIRE

Training – Both Fire and EMS participated in a Mass Casualty Incident. The event, which took place at a residential home, involved several participants including Santa Clara Fire Department for mutual aid. Over 50 people were involved. The drill provides training for Fire and EMS response to a large scale event involving multiple patients and events.

Other Training this month involved Initial Attack skills and first arriving apparatus duties.

I attended the National Fire Academy in Emmitsburg, Maryland. I enrolled in a 6 day class for Fire Chiefs. The National Fire Academy has training for all emergency services and offers classes for anyone affiliated with an agency. The class I participated in was a 6 day on campus course for Fire Chiefs and upper management. This was a valuable learning opportunity for me and I was able to gain some valuable tools in my understanding of the Fire Chiefs' responsibilities.

Significant Events – 12 fire department personnel volunteered time for the night out with Public Safety Event. Firefighters helped with games, public education, engine tours as well as participating in the charity 5K race.
