know what Santa Clara is willing to do. **Dale Coulam** indicated he can ask Santa Clara's City Manager to bring that up to the City Council as a discussion item.

B. Discuss and consider approval of a Proclamation regarding Ivins becoming a Road Respect Community

Council Member Roberts stated it's a great thing anytime the City can educate people on safety. He recommended that the words "rules and respective state laws" be added to the last paragraph after the word "safety" so that it reads in part..."bicycle safety, rules and respective state laws and be more aware of cyclists on our streets and highways." The **Mayor and City Council** agreed. **Mayor Hart** indicated the cycling community takes it upon themselves to educate others.

C. Discussion regarding status of Sensitive Lands Committee and Sensitive Lands Ordinance regarding High Density Residential and Commercial Land Uses

Mayor Hart indicated this has come forward due to an individual on the Sensitive Lands Committee passing away and Lisa Rutherford's term expired three (3) months ago. **Dale Coulam** introduced the Form Tomorrow interns that are assisting the Sensitive Lands Committee. The Sensitive Lands Ordinance was designed primarily for low density and hasn't been amended since 2005. It is difficult to apply the Sensitive Lands Ordinance to high density and commercial. There is also a need for some appointees to the Sensitive Lands Committee. Under the current ordinance, he would have a concern that it could be legally challenged if a high density or commercial application came in on a parcel with sensitive lands. **Mayor Hart** stated the Sensitive Lands Committee has been a healthy thing to have in place because of the remarkable sensitive environment that is in Ivins. He also stated that Lisa Rutherford is a dedicated individual and has done a great job chairing the Sensitive Lands Committee. He is inclined to present her name for re-appointment and would appreciate any other names the City Council may have.
