Ivins City
Engineering Report to City Council
November 12, 2015

Pumping Station Upgrades: Staff is working with the design engineer to finalize a design of the Tuacahn Pumping Station upgrade with plans to start bidding in November.

Ivins Reservoir: The additional material has been removed, we are looking into retrieving the portable restrooms that have been offered by the water district.

Red Mountain Dams Rehabilitation: The Red Mountain Dams Draft Environmental Assessment is complete and we are waiting for a biological opinion from the US Fish and Wildlife. The NRCS has received funds for the design and we will start a consultant selection process so that we will be ready to proceed with the design once the environmental approvals are complete.

Master Planning: Working on RFPs for irrigation and sewer master plan.

Storm Drain Master Plan: Draft is being reviewed by City Council.

Transportation Master Plan: The transportation master plan is also being finalized and will be presented to City Council at the 1st meeting in December

Old Highway 91 Connection to Santa Clara Blvd.: This project will rebuild Highway 91 from 200 East to Swiss Village in Santa Clara. This project is now fully funded and ready to go to bid. It is anticipated that work could start as early as February.

Center Street Wall: This project would construct a flood wall on the south side of Center Street extending from Puerto Drive westward 600 feet. Staff has negotiated with property owners and has received verbal authorization. We have received bids and will request approval from the Council at the 1st meeting in December.

400 East Storm Drain: This project is being placed on hold with the expectation to do the construction in conjunction with other improvements in 400 East that will be installed by Rocky Vista University.
