FIRE

Trainings- April's training focus was on preparing to recertify for the wildland season. Wildland Firefighters are required a 4 hour yearly refresher to recertify. Training nights included a refresher on the proper gear, equipment and tools necessary to fight wildland fire. Firefighters are also required to complete a rigorous physical test. The Pack test standard is wearing a 45 pound pack completing a 3 mile course in 45 minutes or less. 12 firefighters recertified this year. We also had 5 complete the testing process for initial certification. This training was hosted by Santa Clara Fire Department. A Firefighters took classes two times a week for 5 weeks and were tested on skills and knowledge.

Four department members participated in the Southern Utah Wildland Engine Workshop hosted by Forestry Fire & State Lands in Cedar City. Participants spent time in a wildland scenario based hands on training event to hone skills. This training prepares attendees to respond with various tactics on an initial attack of a wildland fire.

Events-Vista School had a field trip to the Fire Station. Second grade morning and afternoon classes visited the station and were shown the apparatus by EMT's and Firefighters and were taught safety skills. Around 100 children and Teachers attended.

Calls- Fire Calls
