Background:

The fiscal year is 66.67% complete at the end of February. This is the middle of the third quarter of the fiscal year and the City's revenues and expenditures are in line with management's expectations, except for vehicle purchases. There are a couple areas of where we spend significant amounts of the budget early in the year, such as, Sand Hollow Aquatic Center, insurance and surety bonds and the Community Education Channel. These will be highlighted below in the summaries for each major fund. The overview of the budget through February 28, 2017 is as follows:

- General Fund
    - General Fund Revenues –
        - The City received has received 84.3% of budgeted tax revenue through the month. This amounts to $2,669,934. The City receives the majority of its property tax revenue during December and January.
        - Building Permits are a reflection of growth in the community. This affects not only the Building Permit Revenue but also the Impact Fee Funds and the Enterprise Funds. There were 12 permits issued in the month of February, for a total of 92 this fiscal year. The budgeted amounts reflect an anticipated 90 permits for the year.
        - The City has received 4 of the 6 B & C Road funds from the State. The payments had been delayed while the cities, counties, and state worked out the new funding calculations from last year's legislation.
        - General Fund Revenue is 76.4% of the budgeted year to date amount.
    - General Fund Expenditures and Departments –
        - The City Manager and Department Heads are reviewing the budgets on a regular basis, having good communication with the Finance Director, and managing their respective department expenditures.

        - The budget was adopted in June and this report reflects the approved budgeted amounts.
        - The department expenditures are consistent with the planning of the Department Heads. All departments have made their anticipated expenditures through the end of February.

- Impact Fee Funds

    - All Impact Fee Funds (Public Safety, Street, & Park) are affected by the number of building permits being issued. All 3 funds have met or exceeded the expectations of their budgeted revenue.
