Mayor Hart and Ivins City Council,

I know you're in the thick of budgeting for FY 18. I hope that you're still on board to support the Dixie Applied Technology College permanent campus. In our early talks, we were hoping to enter into inter-local agreements whereby our cities could commit to support our bond payments with an annual contribution to be determined by each City Council and Mayor. Some of our Mayor's have expressed concern about making commitments for future councils and would rather make a larger, one-time contribution. Others feel that it can be managed with intent language and would prefer annual contributions. We would appreciate your help and support in whatever way Ivins City chooses.

Our bond payment will be approximately $652,000 annually, due in September of each year. DXATC would appreciate county wide support for 20-25% of the payment.

I'm happy to visit your Council to answer questions if that would be helpful. Will you please let me know if and when you'd like me to come? Also, I've attached some photo's of the progress of our campus, scheduled for substantial completion in October.

Thanks for your support!
k
