Date: *August 17, 2017*

Purpose: *Submit July 2017 Budget Summary and Printout to the Mayor and Council*

Background:

The fiscal year is 8.33% complete at the end of July. This is the first month of the fiscal year and the City's revenues and expenditures are in line with management's expectations. There are a couple areas of where we spend significant amounts of the budget early in the year, such as, insurance and surety bonds and the Community Education Channel. These will be highlighted below in the summaries for each major fund. The overview of the budget through July 31, 2017 is as follows:

- General Fund
    - General Fund Revenues –
        - The City has received 5.2% of budgeted tax revenue through the month. This amounts to $174,943. The City receives the majority of its property tax revenue during December and January.
        - Building Permits are a reflection of growth in the community. This affects not only the Building Permit Revenue but also the Impact Fee Funds and the Enterprise Funds. There were 12 permits issued in the month of July. The budgeted amounts reflect an anticipated 100 permits for the year.
        - The City received a reimbursement from UDOT for the work on the entrance road to Snow Canyon for work done in 2012 per agreement.
        - General Fund Revenue is 6.8% of the budgeted year to date amount.
    - General Fund Expenditures and Departments –
        - The City Manager and Department Heads are reviewing the budgets on a regular basis, having good communication with the Finance Director, and managing their respective department expenditures.
        - The budget was adopted in June and this report reflects the approved budgeted amounts.

        - The department expenditures are consistent with the planning of the Department Heads. All departments are within their anticipated expenditures through the end of July.
        - Overall, the General Fund Expenditures are 8.4% which is in line with the budgeted amount to date. Some individual departments are above this percentage due to pay period timing and one-time expenditures.
        - The General Fund shows a deficit of ($102,755) through the end of July. This is typical for this time of year. The largest revenue source for the city is property tax which is not received until later in the year. The City will run a deficit through the first 4 to 5 months of the fiscal year until property taxes are collected.

- Impact Fee Funds

    - All Impact Fee Funds (Public Safety, Street, & Park) are affected by the number of building permits being issued. All 3 funds have realized at least 12.0% of their budget revenue.

- Capital Projects Fund

    - The activities in the Capital Projects Fund are proceeding as planned. No major expenditures have been recorded in the month of July. There may be a change to purchase a fire apparatus instead of undertaking a fire station remodel. This will come to Council before a change is made.
