Background:

The fiscal year is 33.33% complete at the end of October. This is the beginning month of the 2nd quarter for the fiscal year and the City's revenues and expenditures are in line with management's expectations. There are a couple areas of where we spend significant amounts of the budget early in the year, such as, insurance and surety bonds and the annual audit. These will be highlighted below in the summaries for each major fund. The overview of the budget through October 31, 2017 is as follows:

- General Fund
    - General Fund Revenues –
        - The City has received 23.1% of budgeted tax revenue through the month. This amounts to $779,104. The City receives the majority of its property tax revenue during December and January.
        - Building Permits are a reflection of growth in the community. This affects not only the Building Permit Revenue but also the Impact Fee Funds and the Enterprise Funds. There were 7 permits issued in the month of October. The budgeted amounts reflect an anticipated 100 permits for the year.
        - The City has received major sources of revenue as anticipated through October.
        - General Fund Revenue is 27.8% of the budgeted year to date amount.
    - General Fund Expenditures and Departments –

        - The budget was adopted in June and this report reflects the approved budgeted amounts.
        - The department expenditures are consistent with the planning of the Department Heads. All departments are within their anticipated expenditures through the end of October.

        - Overall, the General Fund Expenditures are 30.2% which is in line with the budgeted amount to date. Some individual departments are above this percentage due to pay period timing and one-time expenditures.
        - The General Fund shows a deficit of ($157,748) through the end of October. This is typical for this time of year. The largest revenue source for the city is property tax which is not received until later in the year. The City will run a deficit through the first 4 to 5 months of the fiscal year until property taxes are collected.

- Impact Fee Funds

    - All Impact Fee Funds (Public Safety, Street, & Park) are affected by the number of building permits being issued. All 3 funds have realized at least 40.0% of their budgeted impact fee revenue.
