# Public Safety Department
# February 2018 City Council Report

## POLICE

Highlights this month:

3 Search Warrants

- One for drugs, marijuana and DAB found with two arrested
- Two for vehicle and residential burgs…two arrests made so far, one individual at large still.

Found property with thousands of dollars of sports memorabilia located. We are still looking for owners, possible related theft out of Syracuse, UT.

Officer Matt Stoker while on patrol noticed a structure fire at some storage units located in Ivins City and was able to quickly get SCI Fire & Rescue to the scene, keeping the fire from spreading into local homes in the area. 22 storage units were lost in the blaze.

Francis Lee McCard plead guilty and Tammy Renee Freeman took a plea offer in the Heisler case, leaving Kelley Marie Perry left to stand trial to date.

We have had a few applications for the full-time officer opening, we should be starting some of the interviews shortly.

## FIRE & RESCUE

· Operations normal for Santa Clara-Ivins Fire & Rescue during February. Structural fires, car crashes, fire alarms, medical transports, and 911 calls were the order of business. The number of responding firefighters and EMTs remains high during all times of the day and response time remains low. We have a very dedicated team of paid and volunteer firefighter/EMTs/paramedics responding to every call. While we still have some areas work on the department is functioning well.

· The new E-One structural engine (E-31) is now responding to fire calls and will be relocated to the Ivins Center Street Station very soon. The big blue fire engine (E-35) is being moved to the Ivins Kayenta Station.

· Planning has started for rehab/up sizing of the Rachel Santa Clara Fire Station to serve as the main department station. This will be a several month process involving city departments and outside A&E design. Construction is anticipated to start after the new fiscal year.

· The departments S-130/S-190 wildland training for 12 new firefighters was completed. Several of these new recruits will be on the departments wildfire crew this summer. Structural Fire class is scheduled to start April 1st. A basic EMT is scheduled for March 26th to June 30th if we have enough students. If there are not enough students we will rescheduled for fall.

## *Trainings*

· Regular scheduled fire and EMS trainings were held in February with the focus on emergency vehicle driving. This involved firefighters and medical personnel driving an emergency vehicle simulator/trainer from Utah Valley University.

## *Events*

· A fire department orientation for CERT on February 7th and first aid and station tours for Cub Scouts on February 6th and 20th. We are working to partnership with the Ivins Santa Clara CERT program.

## *Significant Calls for Service*

· On a February 15 the department responded to a structural fire at Red Mountain Storage in Ivins. Fifteen units were involved and seven units were impacted. Ivins lost a substantial amount of city equipment stored in their unit. All of the departments apparatus and firefighters responded.

## ANIMAL SHELTER

We are proud to inform everyone at this moment, we have a total of six animals in the shelter. Four cats and two dogs. Through adoptions and rescue involvement, our numbers are at an all-time low. A special "Thank You" to our rescues, we are very grateful to them for continuing to support us and our "NO KILL" concept.

### DONATIONS:

**Total: $300.85 (food/beds/litter)**

### VOLUNTEER HOURS:

Total Hours: 40 hrs $10.00 /hour Total: $400
