# *Ivins City Finance Report for Vehicle Surplus*

***Date:*** *May 17, 2018*

***Purpose:*** *Review of Vehicles to Surplus*

***Recommendation:*** *Receive Input from Council on Surplus Vehicles*

---

***Background:***

The City has purchased several vehicles this year to replace some aging and high maintenance members of the fleet. Part of these purchases are included in the Public Safety vehicle replacement program.

There will be four (4) vehicles that are surplus and will be sold. Wilson has gone through each of the vehicles and removed any city equipment. The accompanying page lists each vehicle and its data, including year, mileage, and any major problems. Each has a suggested starting bid derived from Wilson, staff, and Blue Book Values.

Please review the attached information to approve the vehicles as surplus and set the final starting bid prices.

Respectfully,

Wally Ritchie
Director of Finance
