Ivins City Staff Report
City Council Meeting 1/3/2019

Agenda Item: Approval of expenditure for streets pavement crack seal maintenance

Submitted by: Charles R. Gillette, P.E., Public Works Director and City Engineer

Recommended City Council Action:
Approve expenditure of $20,010.00 for streets pavement crack seal maintenance.

BACKGROUND:
Staff has identified locations throughout the city that need pavement maintenance. This winter, the city crews are planning on filling those cracks in the asphalt in preparation for the pavement maintenance that will take place in the spring. Sealing, or filling, pavement cracks with asphalt sealing material prevents water from entering the base and subbase of the roadway and will typically extend the life of the road by three to five years. This is a yearly maintenance item for the streets throughout the City.

FINDINGS AND ANALYSIS:
Multiple quotes were solicited, and Maxwell Products provided the lowest price. They quoted two products, one with polyskin and one with cardboard cover. The polyskin product allows for greater efficiency in completing the work, but costs slightly more. However, it allows for greater work efficiency and is therefore the best choice. We recommend the purchase of the polyskin product at a price of $0.4350 per pound for a total price of $20,010.00

SUPPORT MATERIALS:
Quote – Maxwell Products Inc.

FINANCIAL IMPACT:
This expense is budgeted and expected in budget line GL10-6051.5: $20,010.00

Respectfully Submitted:

Charles Gillette, P.E., Public Works Director & City Engineer
