Monthly Budget Report for January

Date: *February 21, 2019*

Purpose: *Submit January 2019 Budget Summary and Printout to the Mayor and Council*

Background:

The fiscal year is 58.33% complete at the end of January. This is the seventh month of the fiscal year and the City's revenues and expenditures are in line with management's expectations. There are a couple areas of where we spend significant amounts of the budget early in the year, such as, insurance and surety bonds, equipment, and the annual audit. These will be highlighted below in the summaries for each major fund. The overview of the budget through January 30, 2019 is as follows:

- General Fund
    - General Fund Revenues –
        - The City has received 77.8% of budgeted tax revenue through the month. This amounts to $3,654,660. The City receives the majority of its property tax revenue during December and January.
        - Building Permits are a reflection of growth in the community. This affects not only the Building Permit Revenue but also the Impact Fee Funds and the Enterprise Funds. There were 10 permits issued in the month of January. The budgeted amounts reflect an anticipated 120 permits for the year.
        - The City received the four distributions of B & C Road Funds for the year in the amount of $278,572.
        - General Fund Revenue is 65.7% of the budgeted year to date amount.
    - General Fund Expenditures and Departments –
        - The City Manager and Department Heads are reviewing the budgets on a regular basis, having good communication with the Finance Director, and managing their respective department expenditures.
        - The budget was adopted in June and this report reflects the approved budgeted amounts.

        - The department expenditures are consistent with the planning of the Department Heads. Parks has replaced equipment lost in the fire last year and expenditures are above normal for this time of year. A portion of that will be reimbursed from insurance. All other departments are within their anticipated expenditures through the end of January.
        - Overall, the General Fund Expenditures are 51.1% which is in line with the budgeted amount to date. Some individual departments are above this percentage due to pay period timing and one-time expenditures.
        - The General Fund shows a surplus of $1,046,961 through the end of January. This is normal for this time of year. The largest revenue source for the city is property tax which is not received until later in the year. The City will typically run a surplus after property taxes are received and that surplus will help carry the City through the rest of the fiscal year.

- Impact Fee Funds

    - All Impact Fee Funds (Public Safety, Street, & Park) are affected by the number of building permits being issued. All 3 funds have realized at least 57.6% of their budget revenue.

- Capital Projects Fund

    - The activities in the Capital Projects Fund are proceeding as planned. Some projects have begun, and expenditures have been recorded through the month of January.
