F. VOCA SUBGRANTEES

Please explain how your VOCA program goals and objectives differ from your agency's proposed 2017 VAWA goals and objectives.
Santa Clara-Ivins Police Department's VOCA program was designed to hire a full-time victim advocate to design from the ground up a victim services program for all victims of crime (not just those of domestic violence or sexual assault) for the citizens of the Santa Clara and Ivins area. The VOCA program is designed to provide 24-hour victim advocate response, resources, information, emergency transportation to shelters, court advocacy, prosecutor meetings, and assistance in filling out and filing CVR and restitution. The VOCA program also includes recruiting volunteers who will be trained by the SCIPD victim advocate and will assist with the victim advocate's duties.

The VAWA program is designed to meet the needs related to domestic violence, dating violence, sexual assault, stalking, elder abuse and other victimized crimes against underserved populations by having a law enforcement investigator with the knowledge who can communicate with these victims, skills to access the crimes and evidence, tools for evidence collections and data retention as well as being to access the needs of the victim which is essential to helping them navigate the criminal justice system, along with assisting in providing referral services (as to our VOCA victim's advocate) and helping protect the victims of victimized crimes of violence.
