Santa Clara-Ivins Fire & Rescue

Serving the Citizens of Santa Clara and Ivins Utah

Monthly Update-February 2020

Trainings-

Fire-
The Wildland class completed training, and testing. The class hours totaled 40 hours of instruction. There were 17 participants on the class which was taught by Assistant Chief Hansen. 10 of the students are from our department.
The annual Wildland refresher training took place this month for the remainder of the current department members. The pack test is also part of this refresher which consists of a 3 mile walk with a 45 pound pack completed in 45 minutes or less. Two runs were completed with approximately 18 and 12 members completing the course.

Training hours- 90

EMS-
EMS training consisted of the Trauma Activation protocol with Dixie Regional Hospital and the Head Trauma Nurse attended to discuss the procedure. We also trained on our Intraosseous procedure and equipment. Practice took place with our current equipment on training aids.

An Advanced Cardiac Life Support (ACLS) class was taught by one of our part-time Paramedics-Mike McEwen. Participants were instructed on advanced techniques for cardiac calls. The class takes 12 hours of class and practical assessment.

Special Events-Public Education
Fire and EMS participated with the Police in a special Public Safety show and tell at Country Kids on Presidents Day. There were approximately 40 kids and adults in attendance.

One CPR class was taught for community members. We are continuing to offer and schedule classes for our communities as citizens are interested and requests are scheduled. We plan on one class a month but are available to accommodate more as the need arises.
