Public Safety Department
March 2020 City Council Staff Report

POLICE

Here is an update to what is happening in the department as it pertains to the coronavirus issues. We have been working to keep our citizens safe while ensuring continuity of functions critical to public health and safety by working within our communities and city while working with the county and state as the nation comes together to slow the spread of COVID-19.

We hare also working to make sure local business such as Harmon's has our support by placing a patrol car just outside and doing routine walkthroughs.

We have continued to post information out on our social media, not only letting the public know about our administrate soft office close. How to reach us but also short video reminders such as Sgt. Studley's Public Service Announcement on Distracted Driving as well as reassuring our communities, we are still here to serve and protect them during this crisis. We have seen a fantastic response to these posts and comments of support and thanks.

Officers are using protective gloves and masks as needed, and we continue to tell officers to handle what they can by phone.

ANIMAL CONTROL

The shelter has been doing "live" videos at our shelter with adoptable animals, or ways to help your pets. We have been receiving amazing donations and words of encouragement regarding how impressed people are with our staff and shelter. Most of the people we have been speaking with have never been to our shelter or Southern UT. We are proud to see our small community shelter and staff are making a positive mark in the Public Safety and Animal Control communities in our state and surrounding states.
