County	2
Total # of Calls Fire Responded	10
Total Month Call Volume	75

These number reflect from April 1st thru April 27, 2020. With COVID-19 the call volume has been down. We have not had as many visitors as normal; however, we anticipate seeing a large influx as parks and businesses start re-opening. As the COVID-19 continues circulating, we are continuing to follow PPE procedures. Such as wearing safety glasses on every EMS call and implementing the use of N-95 masks during our annual flu season. The comradery expressed by employees across the board has been exceptional! Trainings have been moving forward with virtual training. We even have included family members of employees in GPS training and mental health/awareness BINGO.

Currently we have had three confirmed cases of COVID-19 in our response area, 1 has recovered and 2 are still in quarantine. We are getting daily updates from EOC, Dispatch, and IHC and that information is being disseminated through the ranks accordingly.

We have had an amazing outpouring of support from community members, thanking those on shift for their service and sacrifice. We are truly blessed to have such a great group of EMS and

Fire professionals who represent the two cities well, who are ready and willing to do all that is needed to ensure the safety and well-being of those we serve.
