Total # of Calls Fire Responded	33
Total Month Call Volume	104

These number reflect from May 1st thru May 25, 2020. With the increased number of people camping in the west desert our medical and fire calls have been affected. To clarify the confusion in the number of COVID -19 Cases in our response area: we have had a total of 11 cases in our area, 8 in Ivins and 3 in Santa Clara. The confusion was coming from the health department, they were reporting addresses to dispatch, but there were times that we had multiple people at one address, but we were only getting it as one case. Currently we have 6 active cases with 5 recovered. 4 of those cases are in Ivins at two separate addresses (3 cases in one

home), we have two cases in Santa Clara (Both in the same home). We have 5 total patients who have recovered (meaning they now test negative), 4 are in Ivins and 1 in Santa Clara. We are continuing to take isolation precautions ensuring we have masks, gowns, glasses, and gloves for patient contact. Crews are adjusting and doing well.

Wildland-

We have hired our Seasonal Wildland Crew this month and they have begun working on the cutting project in the Central area. They have also completed several controlled/ mitigation burns. They have finished burning the arboretum in Santa Clara and recently assisted with an agricultural burn near the new Swiss Pioneer memorial park.

Fire Crews have responded to four fires so far this month. On May 17th crews responded to assist at the Bloomington fire off Bloomington Cave road. Crews also responded to Two separate fires near Gunlock and at the Reservoir on May 24th. Crews also responded to a fire in the Woodbury reserve near Beaver Dam on the 24th. All of these fires were man caused.
