Subject: Re: Planning commission recommendation to not allow gas pumps in Resort Commercial zoning areas

Dear Kari Jimenez,

We agree with the Planning Commision recommendation to not allow Self Service Stations and Convenience Store gas pumps in Resort Commercial zoning areas.
We would hope that the City Council members will follow this recommendation.
We would like a limit on Convenience stores since we do have many local stores already, and do not see the need for more. These areas need bright lighting that detracts from the 'night sky' goals of Ivins.

Thank you
