Public Safety Department
June 2021 City Council Staff Report

POLICE

Sgt. Briggs attended the FBI LEEDA Supervisor Leadership training this month in Salt Lake City. This training is for first-line supervisors and managers.

Officers began special enforcement activities on Old Highway 91 as traffic has become more congested.

Our Victim Advocate has assisted 14 victims so far this month; eight of them involved children. We had five that were domestic violence and family fights-related incidents. Officers also gave out several domestic violent pamphlets to potential victims.

ANIMAL CONTROL

SCI Animal Control has been patrolling Fire Lake Park and other local parks very heavily. We have had many non-residents bringing their animals to these areas and not following city codes.

They have also received numerous complaints of the geese at Fire Lake. Citizens request the geese to be taken from the area due to their nasty attitudes and extreme feces. Animal Control officers have been doing their best to go and run off the geese from the upper lake area, but it seems a futile feat.

Animal Control had 14 dogs, 17 cats, and seven other animals come into the shelter this month. Some animals were reclaimed by owners, adopted, or sent to rescue, including two hawks released to DNR. There are currently six dogs and 18 cats in the shelter.
