Finance Report for Election Expenditures

Date: ***November 4, 2021***

Purpose: ***Approving 2021 Primary and General Election Expenditures***

Recommendation: ***Approve the Expenditures***

Description:

With 2021 being an election year for Ivins City, the City has incurred election costs by using Washington County as the service provider for ensuring both the Primary and General Elections were conducted in an orderly fashion.

The cost of both elections is estimated to be $28,500 provided by Washington County. The Primary Election invoice has already been received for a total of $11,037. With an expected higher voter turnout for the General Election, we would expect the costs to increase.

Staff recommends the City Council approve the expenditures for the Elections costs. Please note, these expenses were somehow mistakenly not budgeted for. Currently, the total expenses for the Admin department are not over what was budgeted for so there is no need to amend the budget at this time. As the year progresses and the City incurs more expenses, we may have to amend the budget and include these expenses as a line item.

Regards,

Cade Visser
