Petition to Mayor Chris Hart and the Ivins City Council

Pickleball is a low-impact sport enjoyed by individuals of all ages, particularly seniors. Not only is it fun, but it is also great for health! Pickleball offers many cardiovascular benefits for anyone who plays the sport, regardless of their age.

Currently, the City of Ivins has only two (2) regulation size "dedicated" public Pickleball courts, which are located in the Desert Rose Subdivision off of 200 East, and two (2) public courts (non-regulation) with portable nets that are shared with basketball courts located on the north side of Unity Park. When weather permits, these courts, particularly the "dedicated" public courts in Desert Rose are heavily utilized, causing Ivins residents to either wait long periods of time or to relocate to public Pickleball courts in Santa Clara parks, which are also heavily utilized.

The undersigned, concerned Ivins City residents, would like to see additional public "dedicated" Pickleball courts constructed in our city's parks as a benefit to residents of all ages. It is our understanding that by Resolution 2015-03R, Ivins City Council, that one third of the County-wide Recreation, Arts and Parks ("RAP") tax available to the City of Ivins is dedicated to recreation. We would like to see some of those funds allocated to the construction of additional regulation size "dedicated" public Pickleball courts.
