Fire Month End Report April 2022

Emergency Response

1) A structure fire occurred in the Ivins area. No injuries were reported, and the damage was moderate.
2) We responded to several cardiac arrest calls requiring CPR and advanced EMS services.

Administration

1) We are meeting with Washington County representatives to discuss additional revenue sources for responses within their boundaries.
2) Several new policies have been implemented including, uniforms, staffing minimums and response procedures to ensure our services are professional and timely.
3) We are finalizing our fiscal 22-23 budget to include upgrading our response vehicle, communication platforms and stations.
4) Mutual Aid Agreement drafting is taking place with Dammeron Valley Fire to enhance our fire and EMS response to the Gunlock region.
5) 5 Counties CIB meetings are being attended in preparation for our future Fire Station and Ladder 21 purchase. In preparation for our station location, we have developed a call "heat map" showing concentration of calls.
6) We are in the process of several grants and are looking to apply for a SAFER grant to increase staffing levels. We currently have a minimum of 2 firefighters on shift per day but will be increasing that to 5 starting 6/30/22. This consist of 3 full time and 2 part time employees.

Risk Reduction

1) Iron man is on the horizon and active planning with the organizers is taking place.
2) There will be an active shooter drill at RVU on April 30, 2022. 95 students will be trained in basic first AID. The department is looking forward to this exercise. It will involve our Police Department and the students at the University.
3) Two end-of-the year events have been planned with Santa Clara Elementary and Red Mountain Elementary. Both these events are always a highlight to the students and the firefighters.
4) The water line on the west side of Kayenta was activated and found to be functioning properly.
5) We are working with homeowners to offer advice on fuel modifications around homes in coordination with the State of Utah's Fire Sense campaign.
6) The Kayenta Hydrant agreement is in the process of being finalized.

Personnel development

1) The current uniform of the department is being updated to meet safety standards. This project will expand into the new budget year and beyond.
2) SCIR&R is currently supporting student training on our ambulances for two institutions.
3) SCIF&R opened applications for fulltime and parttime positions in our department and will be interviewing 15 people to fill various positions.

Citizens Affairs

1) SCIF&R took part in the Great Utah Shake Out. Our alarm system was put to the test and the public's response thereof.
2) The department applied for a grant in Fuel Reduction in our fire area. We are waiting for a response.
3) A Girl Scout Troup has undertaken a project to paint a few older hydrants in the Santa Clara area and the department is supporting this project.

Station & Apparatus

1) SCIF&R is in the process of procuring varies electronic devices needed to insure a faster response time.
2) Dispatching operations is also being integrated into the new hardware.
3) Our wildland season is starting to "gear up". Equipment repairs and hiring of seasonal firefighters is taking place.
4) Our Rachel Fire Station is going out to bid for an emergency back-up generator.
5) We are receiving our new Medic Ambulance, to arrive in 3-4 weeks from Florida.
6) We are looking into leasing options for several fire and EMS vehicles to reduce our fiscal capital costs.

Special Operations

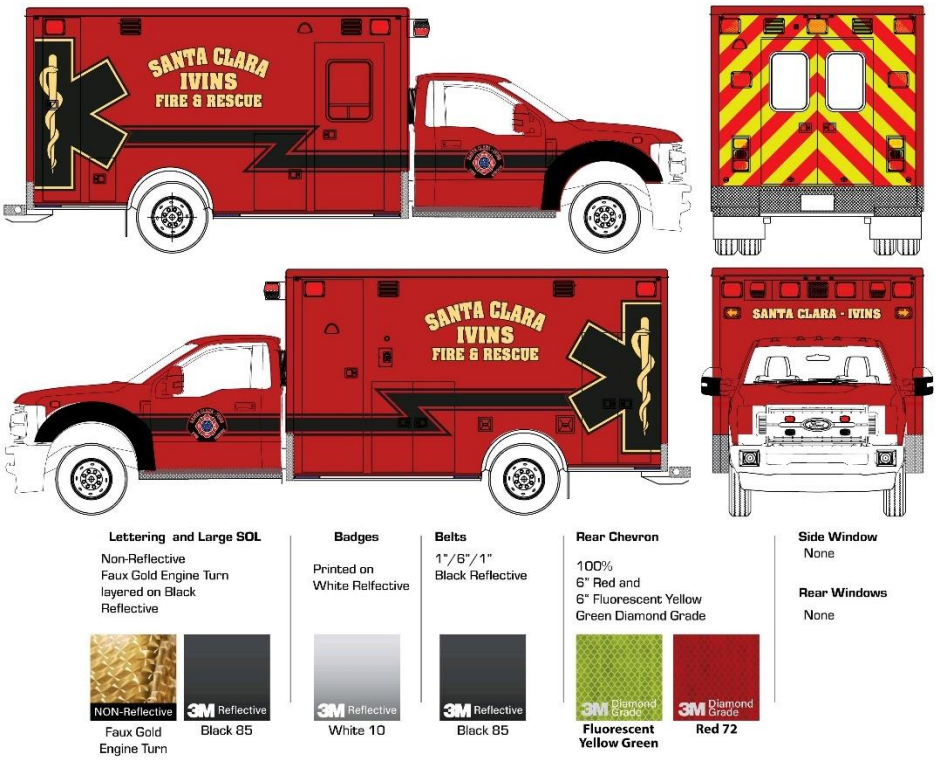

1) We will be purchasing rope rescue equipment to assist us in rendering initial emergency AID to subjects who may have fallen or require rescue while hiking outdoors. Ladder 31 will be outfitted with a variety of special rescue equipment, including the Jaws of Life and special back country rescue gear.
