Attachments: Ivins City Vision.4.pdf

Here are the minor editorial suggestions I sent to Pam before our last meeting. Most of them are now irrelevant since we have worked through and discussed goals A-G.

The two for goal H are relevant to the next discussion dealing with goals H,I, and J.

Pam—
Here are a few small editorial items that you might consider for this most recent version. I have a few other items that I will save for when the Commission is together.

A b I change "the" to "their"
C b I remove in conjunction
E a I 5th bullet add development "...residential development"
F a I 5th bullet simplify to "support plans for elementary, middle and high schools, libraries, and higher education"
H a I 1st bullet a spectrum is already diverse, so the word diverse is not necessary
H a I 3rd bullet "with schools" would be more inclusive than confining the statement to just a district

Thanks for all of your work on the General Plan.

See you Wednesday.
Perry

Hello all,

Thought we would give you a couple extra days to review this, since she sent it into me.

Thank you,
