Ivins Substation Expansion

Rocky Mountain Power has applied for a conditional use permit to expand the Ivins Substation, which is necessary to serve Enlaw LLC's, Black Desert Resort at Entrada, proposed 15.93 MW new load near Ivins, Utah. The Black Desert Resort at Entrada is located on Snow Canyon Parkway south of the horse roundabout.

Summary of Work

Expand Ivins substation to accommodate the installation of a second 69-12.47 kV transformer, two new 12.47 kV capacitor banks, a new tie circuit breaker and two new distribution circuits (feeders) to the customer site.

Purpose/Reason for Work

System additions at Ivins Substation are required to provide distribution level electrical service to serve new load in Ivins, Utah. It is estimated about 81 new buildings with multiple meters will need new service connections from Rocky Mountain Power.

Project Schedule for Work

Design work is underway for the system improvements and will complete by September 2023. Construction work is anticipated to begin in November 2023 and complete by May 2024.
