Parks

Weed abatement continues to be a priority, many thanks to Benny S. for all his work along the roadways.

The Cemetery expansion project is moving along nicely. The trees have all been planted, the decorative boulders have been placed, the grave markers have been set, and the ground cover has all been smoothed out. All the burial plots are now available to the public. The benches will be placed after the weather cools down for ease of working with the concrete.

The Parks Crew is also striving to stay on top of the regular maintenance, pruning, trash removal, facility cleanliness, irrigation concerns and efficiency, and overall appearance.
