K9 Details

- Officer Hall and K9 Copper attended several hours of training with the Life Flight crew this month. Life Flight has started a program for police K9s. They were training their staff and K9 handlers on how to transport a K9 if emergency transport is ever needed. This would cut the transport time from two-plus hours to around 45 minutes and get the dog to an extremely high level of care in Las Vegas. The Life Flight crew worked with K9 Copper and other dogs and saw how to assess them and how to provide first aid. Copper was the first K9 they loaded and secured on the helicopter.
