CITIZEN REQUEST FOR FUTURE AGENDA ITEMS REGARDING ORDINANCES, POLICIES OR OTHER LEGISLATIVE ITEMS

Any person wishing to request an item to be discussed on a future agenda **that has not already been addressed previously,** should comment at this time. **This form is not for complaints or concerns that are not legislative. Complaints and other administrative matters should be directed to Staff.** A Citizen Request Form should be filled out in advance and given to the City Recorder. Remarks should be limited to **not more than two minutes, unless additional time is allocated by the Governing Body**. No action will be taken by the Mayor and City Council the evening that the item is addressed and all items will be referred to staff for follow up and a report.

Ordinance, Policy or Legislative Item:

Appeal for City Council oversight of city Fire Hydrant Maintenance and record Keeping

IC Form 1028 2022-01

I am Louis Baldwin, Kayenta Shonto Point HOA Board member serving as the Infrastructure Committee chairperson.
My purpose today is to draw attention to and ask for an agenda item to be included in City Council meetings regarding Santa Clara-Ivins Fire Dept. documentation of the operational status, locations and maintenance of Ivins city fire hydrants. Those located in Kayenta are of concern to our residents because our homes are in the highest risk area for wild fires.

We recommend

That Ivins City develop a baseline of the current operable status of the 478 hydrants in Ivins and the 155 plus hydrants in Kayenta. This should include a precise digitized location mapping, maintenance scheduling, problem found and rectified as well as a historical record kept.

Question: Is there an up-to-date map depicting all the hydrant locations in Ivins? If there is, can this be made public along with maintenance operations?

That Ivins City ask SCIFD for accelerated testing of Kayenta hydrants because many are known to be beyond the "5 year review plan" cycle, and very well could be inoperable. This in the remotest accessible area of Ivins and most prone to wildfires.

That Ivins City Council receive twice a year updates from the fire department on the testing and maintenance of these hydrants so that residents can be assured that the hydrant intended to service their home in a fire emergency will operate correctly.
