Ivins City Staff Report
City Council Meeting 10/17/2024

Agenda Item: Discuss and consider approval of expenditure and Federal Aid Agreement for Shared Use Path Network Gap Fill Project Phase 2

Submitted by: Charles R. Gillette, P.E., Public Works Director and City Engineer

Recommended City Council Action:
Approve expenditure of $27,246 and Federal Aid Agreement for Shared Use Path Network Gap Fill Project Phase 2

BACKGROUND:
We recently completed the trail gap fill project Phase 1 with funds that were distributed by the Dixie Metropolitan Planning Organization (MPO). Additional funds were allocated to Ivins City and it is necessary that we enter into a new Federal Aid Agreement (FAA) to continue to work on improving the trails in Ivins.

FINDINGS AND ANALYSIS:
This agreement allocates a grant of $375,211 for improving the trail network and requires a match of 6.77% which equates to $27,246 as shown in the table of the attached FAA.

The attached map shows the projects that were completed in Phase 1 and the priorities of the projects in Phase 2. If the Council has different priorities please let us know and we can shift priorities although some have been deprioritized due to the tight timeline and the need to acquire ROW for which there might not be enough time.

SUPPORT MATERIALS:
- Proposed Federal Aid Agreement
- Maps of Project Locations

FINANCIAL IMPACT:
The maximum financial impact to Ivins City is $27,246.

Respectfully Submitted:

Charles R. Gillette, P.E., City Engineer
