Ivins City Staff Report
City Council Meeting 11/07/2024

Agenda Item: Approval of surplus of City vehicles and equipment
Submitted by: City Manager, Dale Coulam

Recommended City Council Action: Approval of surplus of City vehicles and equipment

BACKGROUND: Due to age and condition of these vehicles and equipment, the cost of repairs outweighs their operational value. For the one piece of equipment that is new and unused, it is a duplicate piece of equipment that was included with a purchase and is not needed. It is recommended that the vehicles and equipment listed on the attached document, be surplused. Information and minimum bid values were obtained through research and input from the current and former Ivins City Fleet Maintenance Mechanics.

SUPPORT MATERIALS:

- Information on the vehicles and equipment to be surplused is attached

Respectfully Submitted:

Dale Coulam, City Manager
