Burn Season/ Fuels Mitigation

April update- 20 large piles of burns and chipping in the north end of the Tuacahn Wash. We see 3-4 burn permits issued each day over the past 3 weeks in Santa Clara and Ivins areas.

Donation

SCIFR received a generous donation this past week from Geoffrey Schmidt. This will allow us to purchase 5 new full sets of structural turnouts for our new hires. In addition, we will be able to purchase more than 25 dual-cert turnouts for all full-time and part-time members of the department. This generous gift allows us to complete a multi-year project immediately. We are sincerely grateful for this donation as it allows us to better protect our department members.

Kwavasa Fire/ Structure Fire

We recently had a large fire on Kwavasa Dr. We received assistance from two other agencies in the county with the incident. The fire burned a few trailers on the property as well as some dry vegetation. There were no injuries to any of the first responders. One occupant was on the property at the time of the incident, and he was able to vacate without incident.

We had a structure fire on Vineyard Dr. in a residence. We were able to get a quick knockdown and limit the fire spread to the outside soffit area of the front porch. The fire is under investigation at the time of this report.

CERT

We are currently supporting a CERT class that is being held for the residents of Ivins. DC Fulde has provided fire and EMS training for the students. The class is progressing well, we met with them a few times this past month.
