MVA- 7

Controlled burn- 3

Gas Leak- 2

Agency Assist- 3

Burn Season

After an extremely busy burn season, it is officially closed for the rest of the Summer, we anticipate opening back up again in the Fall.

School Water Days

Our crews have been busy with end of the year fun, spraying elementary and intermediate aged children with water. This is an activity that the kids look forward to each year and definitely a highlight for them. We sprayed kids at Red Mountain Elementary, Santa Clara Elementary, Lava Ridge Intermediate and Vista Charter Schools.

EMS Testing/ State Inspections

We have recently completed our Utah state EMS equipment and vehicle compliance inspections and have passed. This gives us the legal ability to administer our EMS duties including treatment, assessment and transport on all of our medical calls. Crew members have been busy with AHA/ PALS recertifications.

Fire Talk-About

The presentation about fire risk for Ivins went well. There was a 5-member panel addressing fire risk assessments, wise planting recommendations, wildfire preparation around your property and insight on obtaining fire insurance. There were more than 120 community members in attendance.

AEMT Class

We have started two of our full-time firefighters in an Advanced EMT class this past month. The class is 16 hours per week and is scheduled for the next three months.
