Ivins City Staff Report
City Council Meeting 7/17/2025

Agenda Item: Discuss and consider approval of expenditure and Federal Aid Agreement for Traffic Counters

Submitted by: Charles R. Gillette, P.E., Public Works Director and City Engineer

Recommended City Council Action:
Approve expenditure and Federal Aid Agreement

BACKGROUND:
The MPO receives funds for Intelligent Transportation Systems (ITS) projects and has allocated to Ivins City $50,000 to install permanent vehicle counters. The funds should be sufficient to install the equipment in three locations.

FINDINGS AND ANALYSIS:
These are federal funds and as such are subject to all requirements by the federal government. There may be some additional environmental work that will need to be completed to verify that the project does not have an environmental impact.

Staff is recommending that we install them in locations as shown on the attached map. These locations are listed as:

- Snow Canyon Parkway at City Entrance
- Old Highway 91 west of Pioneer Parkway intersection
- Old Highway 91 east of Fire Lake Park intersection

SUPPORT MATERIALS:

- Proposed Federal Aid Agreement
- Maps of Project Locations

FINANCIAL IMPACT:
The maximum financial impact to Ivins City is $3,356.

Respectfully Submitted: Charles R. Gillette

Charles R. Gillette, P.E., City Engineer
