FIRE ALARMS	6.56%
MOTOR VEHICLE ACCIDENTS	0.82%
MEDICAL	70.49%
CITIZEN ASSIST	14.75%
HAZMAT	4.92%

WINTER FIRE SCHOOL AND NEW AMBULANCE

We had multiple members that attended this year's Winter Fire School. The annual event provides training for firefighters throughout the state, with more than 1200 Utah Firefighters in attendance. Our members trained in a variety of disciplines including technical rescues, prevention, EMS and self rescue. Our new ambulance was also on display for the weeklong event.

We took delivery of our new ambulance in January. We have installed the auto load gurney system and working on the last few things. We anticipate the state EMS inspection next week and will place it in service very soon.

JANUARY TRAININGS

Fire Attack with Offensive and Defensive hose deployments

Our members have been busy training on several different disciplines this month. A few of the items include: Fire attack, Apparatus Driver training and Dr. Foster has done an extensive training with newer medications (Ketamine and other pain meds). Three of our members attended a weeklong NFA leadership training in Heber, UT.

We have also invested in our training prop so that we can be better prepared for multiple types of fire and rescue operations. This prop is a multi year project, this year's goal will allow us to train on multi story structure fires and allows for high angle rope and rescue incidents.

Annual Emergency Vehicle Operations Course

I have been working with the City Manager, Chief Studley and others to finalize the public safety contract that will ensure a long term commitment with Santa Clara and Ivins. We are hopeful to have that completed very soon.
