FEBRUARY TRAININGS

Fire and Medical training courses occur each shift. Our Firefighters also completed their Annual EMS Skills Verification, meeting all requirements set by the Utah Bureau of Emergency Medical Services and National Registry of Emergency Medical Technicians (NREMT). Firefighters are certified and licensed through the state at various scopes of practice from Emergency Medical Technician (EMT), Advanced Emergency Medical Technician (AEMT), and Paramedic.

Autism and Neuro-Divergent Training

Staff received training on Autism and Neuro-Divergent Awareness through Southwest Public Health and Utah EMS for Children. Primary Children's has on record 25,000 known autistic children in Utah ranging from ages 0-18. Autism sensory kits were provided through the state to aid patient care for our residents and the 1.3 million visitors.
