## ANIMAL CONTROL

- Kitten season is in full swing, and our officers spend approximately four hours each morning cleaning and caring for the animals to maintain a clean and healthy shelter environment. We are continuing our diligent work on our Trap-Neuter-Return (TNR) program, which involves trapping, spaying or neutering, and releasing feral cats. This program is one of the most effective ways to reduce the number of unwanted kittens entering the shelter each year.
- With the hot summer weather, our officers have also been conducting regular patrols at Fire Lake. Although attendance at the park has decreased due to the heat, we remain committed to keeping our parks safe and ensuring that visitors comply with park and animal regulations.
