Hosted dinner for all attendees to encourage collaboration and strengthen communication between city leadership and public safety departments

Training Updates

Dr. Foster has continued to provide valuable training for our department, supporting ongoing education and professional development for our crews. His knowledge, expertise and engaging approach have made a positive impact on our team and commitment to providing excellent service to our community.

We recently were able to purchase a new Zoll monitor . Most department personnel recently completed additional ZOLL training to strengthen their knowledge and proficiency with our emergency medical equipment. This helps ensure our crews are prepared to use the equipment effectively and confidently when responding to medical emergencies.

Jenny is excited to join the team and looks forward to supporting department operations and contributing to the continued success of the Fire Department. We are excited to have her on board and look forward to the positive impact she will bring to the team.
